ABOUT ME

B.Tech 4th-year Computer Science and Engineering student with a strong foundation in software development and a passion for building practical solutions. Experienced in cross-platform development, taking applications from initial concept to successful public deployment. An enthusiastic learner who actively explores cloud ecosystems and artificial intelligence integrations, demonstrating the ability to quickly adapt to new tools and environments to deliver user-centric software

EXPERIENCE

AI Trainer / Technical Contributor (March 2025 - Present)

Outlier AI

- Evaluated and refined AI-generated outputs to improve model accuracy and reliability
- Applied data processing and alignment techniques on large datasets
- Contributed to enhancing robustness of AI models in real-world scenarios

MERN Stack (June 2025)

Luminar Technolab, Kakkanad

- Developed responsive web applications and built RESTful APIs using the MERN stack (MongoDB, Express.js, React, Node.js).
- Managed database operations and optimized server-side architecture to enhance overall application performance.

Artificial Intelligence & Machine Learning Internship (June 2025 - July 2025)

IBM SkillsBuild and Edunet Foundation

- Leveraged Python for data analysis and the implementation of Machine Learning algorithms.
- Developed a real-world AI capstone project, earning specialized IBM digital credentials for technical proficiency.

Foundation of AI Internship (April 2025 - May 2025)

Microsoft and Edunet Foundation

- Acquired foundational expertise in Machine Learning, data processing, and AI ethics.
- Applied theoretical AI concepts to hands-on project work, successfully bridging frameworks with practical implementation.

PROJECTS

Multi-Tenant School Management System | *Flutter, Firebase, Play Store*

- Led the end-to-end development and deployment of a cross-platform school management application.
- Architected a scalable solution supporting administrative operations and role-based access for 150+ schools.
- Successfully managed production deployment and scaled the platform to support 400+ active users.

Prism Studio (Centralized AI Hub) | *React, Gemini AI, TensorFlow.js, REST APIs*

- Architected and launched a dynamic web platform designed to centralize, manage, and showcase various AI tools.
- Integrated Google Gemini AI, TensorFlow.js, and Img.ly to power features like real-time image processing and text summarization.
- Accelerated development cycles by leveraging AI-assisted prototyping to rapidly build and deploy responsive web interfaces.

SKILLS

Languages: C, Java, Python, Dart, SQL

Tools: Git, Firebase, Google Cloud Platform (GCP), Figma, n8n, MongoDB, Node.js

Core Competencies: Flutter Development, Mobile App Deployment, Artificial Intelligence & Machine Learning, Database Management System (DBMS), AI-Assisted Web Development, RESTful APIs, UI/UX Design Basics

PERSONAL DETAILS

Address: Palamoottil House, Kochuthovala, Kattappana, Kerala - 685514

Languages Known: English, Malayalam

Date of Birth: 21-07-2005

Nationality: Indian

EDUCATION

2023 - Present

B.Tech Computer Science and Engineering

Amal Jyothi College of Engineering , Kanjirappally, Kottayam

CGPA : 9.98 / 10

ACHIEVEMENTS

Academic Excellence: Awarded the Director's Honours List for 5 semesters, achieving a perfect 10 SGPA in three of those semesters.

GATE 2026 Qualification: Successfully qualified the Graduate Aptitude Test in Engineering (GATE) 2026

Google Play Store Publisher: Successfully developed and deployed a production-grade multi-tenant application to the Google Play Store, handling administrative operations for 150+ schools.

Google Cloud Arcade Facilitator: Selected as a facilitator and active participant in the Google Cloud Arcade program, demonstrating practical competencies in cloud technologies

CERTIFICATIONS

- **Database Management System**
NPTEL
- **Problem Solving Through Programming in C**
NPTEL
- **Artificial Intelligence Fundamentals**
IBM
- **Java Foundations**
Oracle
- **Google Cloud GenAI Academy 2.0**
Google Cloud
- **Introduction to Cyber Security**
Infosys Springboard
- **Introduction to Front-End Development**
Meta
- **AI Essentials**
Intel
